

CODE RED™

Emergency Communication Made Easy.

CodeRED is a state-of-the-art voice messaging system that the Coral Springs Police Department will use to alert residents about local criminal activity, homeland security issues, weather emergencies, missing children or adults, evacuation orders, and other situations that require immediate dissemination of crucial information.

The **CodeRED** system can deliver a recorded message to 60,000 residents in an hour, and can target specific geographic areas.

The **CodeRED** dialing system attempts each telephone number up to 3 times and will leave a message if there is no answer!

Residents and business owners can make sure they are signed up by visiting the online form at:

CoralSprings.org/codered

You can even add out-of-town or cell phone numbers, in addition to primary home or business numbers, as long as a Coral Springs address is provided.

Please note that **CodeRED** will show on Caller ID as a string of 9's and 1's.
